**Sub: Review Comments Regarding the
Draft Sacramento 2030 General Plan**

Dear Ms. Koch:

This letter and comments contained are sent in response to your Memo of 7/2/08 regarding request for review of the Draft Sacramento 2030 General Plan.

Fulton-El Camino Recreation and Park District (FEC) is located in the Arden Arcade Special Study Area as noted in this General Plan. FEC is a special district that provides park and recreation services to approximately 34,000 residents who reside in 5.5 square mile area of Arden Arcade. As such, my comments contained herein will deal with our perception of how this General Plan and its elements may impact FEC and the Arden Arcade Community.

1. FEC, as an independent special district, is naturally concerned about the future of Arden Arcade area and how the potential implementation of this General Plan will impact our District and the proposed creation of the City of Arden Arcade. Although there was a brief mention of the need for Interagency coordination and minimizing impacts to special districts, there was no mention of how Independent Special Districts would be treated if the area were annexed, nor any discussion of how this General Plan and the proposed movement to create the City of Arden Arcade would be resolved.
2. FEC was created over fifty years ago to serve the park and recreational needs of the District residents. Our residents have and continue to invest in their park and recreational facilities through their property tax, and benefit assessments to maintain,
